PROFESSIONAL SUMMARY

BSc.IT graduate with a strong interest in Artificial Intelligence, Data Science, and secure system development. Experienced in building machine learning models, developing secure authentication systems, and creating responsive web applications. Skilled in Python, PHP, and database management with hands-on experience in data preprocessing, model evaluation, and backend development. A fast learner with strong analytical thinking and problem-solving abilities, seeking an opportunity to apply technical skills in AI-driven and data-focused environments.

EDUCATION

Bachelor of Science in Information Technology (BSc.IT)

International School of Management and Technology (ISMT) 2023 – 2026

PROJECTS

SecureAuthSystem – Cybersecurity Project

- Developed a secure authentication system using PHP, MySQL, HTML, CSS, and JavaScript.
- Developed a secure login system with Multi-Factor Authentication (MFA)
- Implemented CAPTCHA validation to prevent automated attacks
- Applied session protection and authentication verification techniques
  https://ansh022222222.github.io/SecureAuthSystem/

AI Solution – Startup Website Development Project

- Designed and developed a complete website for AI Solution startup concept
- Created UI/UX design and responsive user interface pages
- Developed an admin panel for content and system management

- Applied structured data handling and secure development practices
  https://ansh022222222.github.io/AI_Solution/

MealMate – Web Application

- Developed a meal planning and recipe management web application
- Implemented search and user interaction features
- Strengthened front-end development and usability design skills

---

Breast Cancer Prediction – Machine Learning Project

- Developed a machine learning model for breast cancer classification using Python.
- Performed data preprocessing, feature engineering, and exploratory data analysis.
- Evaluated models using accuracy, confusion matrix, and performance metrics.
- Used pandas, NumPy, matplotlib, seaborn, and scikit-learn.

TECHNICAL SKILLS

- **Programming Languages:** Python, PHP, JavaScript
- **Web Technologies:** HTML, CSS, React
- **Database Management**: MySQL
- **Tools & Technologies**: Git, GitHub, Figma, XMAPP, Vs Code
- **Concepts**: Machine Learning, Data Preprocessing, Authentication Systems

---

SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Fast Learning Ability
- Communication & Presentation
- Team Collaboration

ACTIVITIES

Volunteer – ISMT Job Fair (2023)

- Assisted in organizing and coordinating the college job fair event.
- Supported employers and recruiters with registration and logistics.

LANGUAGES

Nepali – Native
English – Fluent
Hindi – Fluent

CERTIFICATIONS

Web Design Certification – Code IT (2025)

Python Programming Certification – Code IT (2026)
